**Dozen birthday curiosities for Joe Biden**

By AZIZ INAN

The inauguration of Joseph (Joe) Robinette Biden, Jr. as the 46th president of the United States to take place on 1/20/2021 will mark the commencement of the four-year term of Joe Biden as president and Kamala Devi Harris as vice president. Harris, born in Oakland, California, turned 56 on 10/20/2020 last month and Biden, born in Scranton, Pennsylvania, turned 78 this month, on 11/20/2020. At 78, Biden is set to become the oldest president in American history.

To acknowledge that Biden will be the oldest US president to take office, and because he just celebrated his 78th birthday, I prepared the following dozen numerical birthday curiosities in his honor:

1. If numbers 1 through 26 are assigned to letters A through Z, the sum of the letter numbers of Joe Biden to become the 46th US president equals 64.
2. Biden's full birthday is embedded in his last name: the letter numbers of Biden are 2, 9, 4, 5, and 14 and interestingly, 2+9=11, 4x5=20, the reverse of 14 is 41, the 41st prime number is 179, and twice the reverse of 179, namely 971, yields 1942. Amazingly, 11, 20, and 1942 put side by side as 11/20/1942 is Biden's birthdate!
3. If 11/20/1942 is split as 11, 20, and 1942, the reverse of 1942, namely 2491, equals 47x53. Interestingly, 47 and 53 are the 15th and 16th prime numbers and 15+16=11+20.
4. The rightmost two digits of Biden's birth year 1942, namely 42, equals the number of days in each year from Biden's birth-day on.
5. Biden's 78th birthday number equals 11202020=2x2x5x19x41x719 and 2+2+5+19+41+719=788. The sum of the prime factors of 788, namely 2 and 197,

6. Furthermore, if 11202020 is split as 1120 and 2020, the difference of these two numbers is 30 square, 30 being the sum of the letter numbers of Joe.
7. The sum of the prime factors of 2020, namely 2, 5, and 101, equals 108, the sum of the letter numbers of Robinette.
8. Moreover, 2020 is also a special year for Biden since Joseph Robinette Biden is made of 20 letters.
9. Additionally, 1+1+2+0+1+9+4+2=20.
10. Further, 11+20+20+20=71, the 20th prime number.
11. Joe Biden's inauguration is scheduled to take place on 1/20/2021, a seven-digit palindrome date [1]. This is the first time the inauguration day will be a palindrome date. This is a very rare coincidence because after this one, the next palindrome inauguration day is to occur 1000 years later, on 1/20/3021.
12. Lastly, Biden's and Harris's birthdates are embedded in 1/20/2021. If 11/20 and 10/20 are split as 11, 20, 10, and 20, interestingly, the difference and the sum of 11 and 10 equal 1 and 21 respectively, and numbers 1, 20, 20, and 21 put side by side yield 1/20/2021.

Happy 78th birthday, Joe Biden! Congratulations to you and Mrs. Harris on your victory in the 2020 US presidential election.
