We can't afford to wait to address climate change

Climate change is happening, it is here, it is real and it is the biggest threat to our planet.

We have all seen the reports and heard the news. Extreme action must be taken. Small actions can add up to big results, but it will take us all to fight climate change.

When this nation decides to do something about climate change, it will be too late. But very soon we would have to take a similar action.

Climate change is a serious and present danger. Our government needs to take bold action to protect our nation and the world from the worst effects of climate change.

Climate change is a pressing issue that requires immediate attention and action. We must take steps to mitigate its effects and work towards a sustainable future.

Climate change is a global crisis that requires urgent action. The time to act is now and we must work together to create a sustainable future.
