Contemporary Issues Assignment

Fall 2020

Due one week after the event, or by the beginning of class on Wed, 11/25/20, whichever is first. (But do it now and get it over with. Don't procrastinate).

This assignment is worth the equivalent of one homework assignment.

The purpose of this assignment is to help students become more aware of contemporary issues related to electrical engineering that can affect their careers and lives. To receive credit for this assignment, you need to attend at least one professional meeting or lecture where a contemporary issue related to electrical engineering is presented and write a short (approximately one page) summary of the presentation.

A list of pre-approved events will be posted at:

<https://sites.up.edu/hoffbeck/contemporary-issues-assignment/>

If you plan to attend a presentation that is not listed on the website, please contact your instructor before the event to see if it will be approved for this assignment.

The summary should be type-written, approximately one page long, and should include the following items:

1. Your name
2. The title, date, and location of the event
3. Name of the speaker, and his/her affiliation (company or university)
4. Summary of the presentation discussing the main points and what you learned from the presentation.
